these arrangements and believe that they will help us greatly in our difficulties.

Hoping that you are enjoying your time in England,

I am,

Yours sincerely,

President.

July 28th, 1917

Professor J. J. Mackenzie,

London, England.

Dear Professor Mackenzie:

Many thanks for your cable with regard to the willingness of Miss Cullis to come for the months of January, February, March and April, the honorarium to be fifteen hundred dollars, and her travelling expenses. I have cabled you accepting the offer.

It has occurred to me that it might be better to state a definite sum sufficient to cover the travelling expenses. If you agree with this can you estimate what amount would be sufficient and fair ? I will advise the Board at its meeting about September 10th and will recommend them to appoint Miss Cullis on these terms.

I am glad that you have been able to make these arrangements and believe that they will help us greatly in our difficulties.

Hoping that you are enjoying your time in England,

I am,

Yours sincerely,

President.

December 24th, 1917.

The President,

University of Toronto.

Dear Sir Robert:-

I beg to acknowledge the receipt of a copy of the resolution recently passed by the Advisory Council for Scientific and Industrial Research.

I think that it is not probable that this resolution is likely to affect my department as much as some others but I feel that it is a great opportunity for the University to assist the Research Council in one of the most important developments in Canada arising out of the war. As a member of the staff of the University I would advise the fullest and frankest cooperation with the Research Council in this matter.

I remain,

Sincerely yours,

J. Stewart Mackenzie

Professor of Pathology and Bacteriology.

[1917-18]

Dear Sir Robert

In the inclosed copy of the British Medical Journal is a sketch of Wm McCrae with an appreciation by Adami of the work of the U. of T. which ought to have a wider publicity than that given by a medical journal

Yours sincerely

J. Wm Dawkins
